

Legalization Keesing Documentchecker

Keesing Reference Systems B.V was founded in 1923 and leads the way in digital ID document and banknote authentication solutions. The technology used in our solutions is powered by nearly 100 years of experience and accumulated knowledge.

The secured reference database Keesing Documentchecker contains information on ID documents and banknotes from over 200 countries and organizations. These ID documents and banknotes, including their security features are acquired from legal sources only.

All the images used in Documentchecker are created in our own studio and are captured from the original ID documents and banknotes.

The technical descriptions of the ID documents and banknotes and their details are composed by Keesing's own document experts. These document experts are former Dutch Immigration Officers and internationally recognized as Document Experts.

Our commitment to develop the highest quality products and services, ensures the information in Documentchecker is complete, reliable and accurate. We make every effort to ensure that our database is up-to-date, leveraging our extensive knowledge of document technologies and designs.

To achieve this we cooperate with international government agencies, as well as embassies, consulates, central banks and producers.

Keesing is trusted by Interpol as a partner for worldwide reference data on banknotes and has been identified by the International Civil Aviation Organization (ICAO) as the industry leader in the publication of ID document databases and guides.

Keesing Reference Systems is an ISO 9001 and ISO 27001 compliant company. As an ISO 9001 registered company, Keesing is committed to delivering excellence in quality. Our objective is to deliver the best solutions and services possible.

By obtaining the prestigious ISO 27001 certification, Keesing demonstrates its longstanding commitment to security, operational excellence and its ability to handle client information in a highly secure manner. This certification allows Keesing to further strengthen its dedication to establish a relationship of trust with its clients regarding the way information is secured and managed effectively.

A handwritten signature in black ink, appearing to be 'Mike Krechting', with a long horizontal line extending to the right.
