Documentchecker provides all the information you need to verify ID documents

Verify the authenticity of ID documents against the most complete and up-to-date information from around the world. Documentchecker contains clear descriptions and images of thousands of ID documents including their security features, such as watermarks, holograms and UV features. The zoom-and-scan function allows close inspection of the entire document. It also pinpoints the location of security features on the ID to ease up verification. Documentchecker gives you peace of mind that the data you rely on is the best and most comprehensive available.

Verification of the MRZ code

Documentchecker helps you to verify the authenticity of a document in just a few seconds, by checking its Machine Readable Zone (MRZ). This check forms an important part of the verification process.

Continuously updated, always accessible and access to Helpdesk support

As the database is continuously updated, you have access to the most up-to-date information, 24 hours a day, 7 days a week. In case of doubt, you can at all times seek assistance from the Keesing Helpdesk, staffed by experienced document experts.

Information compiled by document experts

The information in Documentchecker has been compiled by document experts from the Keesing ID Academy. Our experts examine all ID documents and their security features in detail. Together with the Studio, they create easy-to-use reference information and detailed images for Documentchecker.

To safeguard the quality of the content and to keep Documentchecker up-to-date, Keesing closely cooperates with international governments.

Over 60,000 users around the world

Within 24 hours your staff can be operating with increased competence in inspecting and validating documents, using information from the most up-to-date ID checking source. Documentchecker has proved an invaluable tool for HR Departments, Security Managers, Compliance Managers, AML Managers, Police and Government bodies across the world, aiding security and compliance.

Documentchecker International ID Documents

Documentchecker International ID Documents gives access to up-to-date information on ID documents from over 200 countries and organisations.

- 5,000+ passports, ID cards, driver's licenses, visas and residence permits

Keesing Technologies

Keesing Technologies was founded in 1923 and leads the way in digital ID document and banknote authentication solutions.

Our objective is to help organizations prevent counterfeiting and combat fraud by providing the world's best authentication solutions.

To this end, we market a range of printed and digital solutions that allow users - from document professionals to untrained staff - to assess the authenticity of nearly all ID documents and banknotes currently in circulation. Solutions that provide you with the assurance of a document's authenticity.

The technology we use is powered by nearly 100 years of experience and accumulated knowledge. Thousands of organizations around the world rely on our solutions every day.

Keesing is the owner of the world's most comprehensive source of genuine ID documents and banknotes. A database which provides you authoritative access to international ID documents and banknotes from over 200 countries and organisations. The database, which powers all our products, includes detailed descriptions and high-quality images of thousands of passports, ID cards, driver's licenses, visas, residence permits and banknotes. Keesing is trusted by Interpol as a partner for worldwide reference data on banknotes.

Keesing's objective is to develop the highest quality products and services. To achieve it, we cooperate with international government agencies, as well as embassies, consulates and central banks.

Keesing serves more than 6,000 organizations, including government agencies, security printers, temporary employment agencies, insurance companies, banks, telecom providers, solicitors and airlines. Keesing has offices in The Netherlands, France and the USA. Keesing collaborates with distributors, strategic partners and agents all over the world.
